FRIDAY MORNING, NOVEMBER 12, 1926.

DAILY, 5 CENTS.  
SUNDAY, 10 CENTS.NEW WAR TO  
BE FOUGHTPershing Fears  
Crime TrendGeneral Charges America Has  
Lost Its Great Spirit of  
Civic RighteousnessProtection of Individual from  
Lawless Declared to be  
Vital Problem Today

CHICAGO, Nov. 11. (Exclusive)—John J. Pershing, Chicago's new distinguished Armistice Day speaker, charged in an address before the Elks Club at the Hotel Sherman today that the nation's "spirit of civic righteousness and integrity is failing." The commander of the American Army that ceased fighting in France eight years ago today found room for strong satisfaction in the situation of 1918. But regarding the state of present peace, he declared:

"The old war-time virility that spurred the citizens to stand gallantly and fearlessly in the battle against ignorance, corruption and crime seems to have disappeared."

It was he that emphasized the need of the young soldiers we will be training to be men of good character.

"It has been said that the test of a good government is found in its protection of the individual in person and property. In other words the state is in the maintenance of law and order."

The conditions in this respect deserve serious attention by all citizens, statesman not long ago said Pershing. The population of the United States is now more than twice as great as our modern neighbor, twenty times as many as Germany, and ten times as many as England. The margin in the country in 1925 is the same as in 1918 of one in every 600 of our population. A single margin of terror exists in this place.

## OPEN WARFARE

Our warfare against crime and robbery is steadily increasing. Robbery is the most serious of crimes to us since the public safety is of vital importance.

Although many new criminals are caught and punished, the number of them is now regarded as small. Sentiment on this question, however, has shifted so rapidly in both the Senate and Chamber that it is almost unprecedented in its history.

"It is an insurance policy on the part of the government," said one of the leaders in the Senate, "that the public will be protected through the efforts of the lobby."

Politicians, it is anticipated, will be

elected at least until after the budget is voted. This would carry the financial situation over the holidays.

Calmly into February, when the

debt settlements will come up for ratification.

The chances of ratification of the Washington debt agreement, which has been signed by the majority of citizens, are not good. Although many new criminals are caught and punished, the number of them is now regarded as small. Sentiment on this question, however, has shifted so rapidly in both the Senate and Chamber that it is almost unprecedented in its history.

# Chief Executive Points to Peace as Goal But Reiterates American Inviolability

## DISLIKE OF EUROPE FOR UNITED STATES DEPLORED

### President Coolidge Pays Tribute to War Dead and Heroes Who Carry on Nation's Heritage

(Continued from First Page)  
of this country adhering to the court.

#### LOSS IN WAR

Answering the charges that the United States profited from the World War, Mr. Coolidge said that "we lost it in common with all countries in the war." "Some individuals made gains," he added, "but the nation suffered great losses. The war left us with debts and mortgages, without counting our obligations to our soldiers which will take a generation to discharge." Opportunity also was taken by the President to set forth in even more definite form than he has in the past his views on conscription of capital as well as man power in time of war.

"To expose some men to the perils of the battlefield," he said, "while others are safe at home, is not good for the distress of our country is not in harmony with our ideal of equality. Any future policy of conscription should be all inclusive, applicable in its terms to the entire wealth of the nation and the entire wealth of the whole nation."

After asserting that the armistice of 1918 did not mark the end of the war, for the end is not yet," Mr. Coolidge declared for the first time in naval and aviation preparedness. While he emphasized that the United States does not seek to be a military power and "cherishes no imperialistic desire," he nevertheless reiterated the desire of the Washington government for a lessening of competitive armaments.

"We have at last entered into treaties with the great powers," he said, "eliminating to a large degree competition in naval armaments. We are engaged in negotiations to broaden and extend this human and enlightened policy, as well as to make reasonable sacrifices to secure its further adoption."

mentioning war debts owed the United States by foreign countries and their adjustments, Coolidge again declared that "moderation is a mutual international obligation."

**POLICY REITERATED**  
"Out government," he said in this connection, "has steadily maintained the policy of recognition and sanctity of international obligations and in the past has been a consistent advocate of the principles it has not believed the world, economically, financially or morally, could rest upon any other secure foundation. But such a policy does not include extortion or oppression. We have decided to deal with other countries in accordance with these principles, believing that their application is for the welfare of the world and the advancement of civilization."

**REPLY TO EUROPE**  
Europeans were met by the President with the statement that he wants "to be sure that the attitude and acts of the American government are right." This is the "willing and trust" to others the full responsibility for the results of their own behavior."

"If we are to have peace," he asserted, "we are to live in accordance with the dictates of a higher life. We should work only nations, spirit of sacrifice, devotion and hatred toward other nations. The Old World has for generations indulged itself in this form of luxury. The results have been ruinous. It is not for us

1924 WEST 6TH ST.  
Near Cor. Westlake Ave.

You can realize your greatest ambition in life, success in business, advancement, power of control and influence.

**Practical Psychology**  
Applied, will pave the way to success in business, love, marriage, health, domestic happiness and all affairs in life.

In dealing with your present and future problems will enable you to remove stumbling blocks and obstacles which retard your progress and prevent you from realizing the happiness, success and prosperity which rightfully belong to you.

**A Doubter Never Wins**  
Don't hesitate, call today. Established 27 years. All business confidential. Hours 11 to 6. Thursday eve. until 9. Closed Sundays.

Individual instructions offered in practical-psychology, vocational and psycho-analysis.

Five years ago it was my fortune

to take part in a public service held on this very site when Gen. Pershing, Admiral Beatty, Marshal Foch, Gen. Diaz and Gen. Joffre, represented the Allied countries in the presence of the American Legion convention, assisted in a formal beginning of this work which is now reaching its completion. Today I return to the spot, the seat of the distinguished Senators from Missouri and Kansas, and on the invitation of your committee on arrangements, in order that I may place the official sanction of the government on one of the most elaborate and impressive memorials that adorn our country.

**FITTING OBSERVANCE**

It comes as a fitting observance of this eighth anniversary of the signing of the Armistice on November 11, 1918. In each recurring year of this war, we have understood, goodwill and friendly relations between ourselves and all other people. This first requisite for this purpose is a friendly attitude on our part. They tell us we are not the only ones who have understood, goodwill and friendly relations between ourselves and all other people. This first requisite for this purpose is a friendly attitude on our part.

# Inviolability Y SPREADS JOY

Wife Wins High Honor Place  
of Kansas Cityans

Mrs. Calvin Coolidge, the first lady of the hearts of the people of Kansas City, was faced with brown silk shoes and the same shade stockings. She removed the coat, revealing a velvet in most shades. Mink fur bands on the shoulders and to skirt hem, red leather sleeves of green georgette, lined by satiny silk of brown effect. This glorified leather and the waistline. Just before leaving Mrs. Coolidge ordered that the great loads of flowers which were presented her be given to Mercy Hospital for the benefit of the crippled children.

## SEAT-LOSER ASKS REED FOR HELP

Defeated West Virginian Representative's Plea for Investigation Refused

CHARLESTON (W. Va.) Nov. 11. (P)—The Senate Campaign Funds Committee was investigating today by Representative Taylor, Democrat, of Kanawha, who is jurisdiction. Representative Reed, who was defeated by thirty-eight votes to re-election in the Sixth West Virginia Congressional District by E. T. England, Republican.

Charges of vote buying and other irregularities were made by Mr. Taylor, Democrat, Senator Reed of Missouri, Chairman of the Senate Committee, in which he requested the investigation.

Mr. Reed said a better existed here than the committee had been to the election of a member of Congress.

Mr. Reed said that he had been hearing of no election of a Democrat Senator here this year, Mr. Taylor was uncertain about the matter.

ST. LOUIS, Nov. 11. (P)—Senate Chairman of the Senate Campaign Funds Committee, said today the committee had no jurisdiction to go into the Sixth West Virginia Congress District election, represented in a telegram from Representative Taylor.

Mr. Reed said that thousands of

such

## YEARS OF CONSTANT APPLICATION BRINGS GLAND SURGEON FAME

A pioneer in American gland surgery, Dr. Clayton E. Wheeler has attracted world-wide fame as an endocrinologist. Dating back to his research work at San Quentin up to the present, he is constantly besieged for lectures, articles and interviews pertaining to the influence of the ductless glands on health, body growth, its relationship to the energy of body and mind, and as to its control of behavior.

The ductless glands are the sources of the hormones in the blood—in fact, the internal secretions form the blood-food.

To know fully of gland surgery as performed by Dr. Wheeler, one has but to read his treatise, THE PROLONGATION OF HUMAN EFFICIENCY, which is sent for 12c in postage. Dr. Wheeler may be consulted without charge at his Los Angeles office, 3173 Wilshire Blvd.

In the hundreds of unsolicited testimonial from former patients one or more may be found parading practically every ailment, where the writer tells of highly satisfactory results from the operation.

Research Dept., Dr. Clayton E. Wheeler, 3173 Wilshire Blvd., Los Angeles, Calif.

## TAX REDUCTION MAY BE HELD UP

Green Says Coolidge Plan Must Take Its Turn

Obstacles to Its Passage at Short Session Foreseen

Alien-Property Bill Will Get Right of Way

WASHINGTON, Nov. 11. (AP)—The income-tax credit proposal of President Coolidge will have to await its place on the Congressional calendar.

Chairman Green of the House Ways and Means Committee, which must first consider such legislation, came to town today and announced his committee will give the tax-protection bill right of way. The committee has been called to meet next Monday to consider this measure.

Although he has repeatedly said he will not give any thought at the approach of the session to the question of tax reduction, he had little comment to make on the tax credit idea after a conference late today with Secretary Mellon. During the conference, other information on the condition of the Treasury which led the President to favor a return of the prospective surplus for this fiscal year to the taxpayers.

Neither is the committee chairman very hopeful that the President's suggestion for nonpartisan consideration of the tax bill will be adopted very far, and it is understood he painted a rather gloomy picture to Mr. Mellon of the obstacles tax legislation might face at this session.

He held brighter prospects, however, about the alien-property bill and he invited Mr. Mellon and Undersecretary Winston to appear before his committee to discuss the bill's chances of the administration on this proposal, which would work out a plan for the immediate return of all alien property still held by the government.

It is believed that Mr. Green will endorse the administration's plan to obtain a credit of about 25 per cent on the first two portions of next year if he approves of any tax legislation at this time.

## HOBBO AND 'BUM' NOT IDENTICAL

First Termed Traveling Worker While Second Branded as Local Loafer

OMAHA, Nov. 11. (AP)—A campaign to acquaint the public with the distinction between a "hobo" and a "bum" is urged by speakers at the national convention of hobos.

"The bums are local fixtures in almost every instance," one speaker declared. "They will not work and do not move from place to place. The hobo is merely a migratory worker, who travels to participate in construction work and to help with the harvests."

"The work that he does would not be done if there was not such a class of casual workers, willing to undergo the hardships of this life to work under such conditions."

## MYSTERIOUS ASSAILANTS SHOOT GIRLS

One Killed and Second Near Death by Attacks in Chicago Suburbs

CHICAGO, Nov. 11. (AP)—Two mysterious girl shootings confronted police of Chicago Heights and Blue Island suburbs, tonight. When Esther Mass, 13-year-old school-girl, was probably fatally wounded while working in the field near her home. A twin sister, working with her, escaped injury.

The first shooting occurred in a Chicago Heights street last night, where Victoria Dorothy Delamata, 15, was slain by an unidentified assailant, as she was returning home from taking violin lessons. The motive for the attack remains unknown.

It is believed that Mr. Green will endorse the administration's plan to obtain a credit of about 25 per cent on the first two portions of next year if he approves of any tax legislation at this time.

## BORAH WANTS FRAZIER BACK

Plea for Reinstatement of Insurgent Sounded

Aid of Banished Republican Senator Sought

Dakotan Thought to Hold Key to G.O.P. Problems

WASHINGTON, Nov. 11. (AP)—With the political situation in the next Senate hanging in the balance, Senator Borah of Idaho today called on the Republican leaders to have the party's council Lynn J. Frazier reinstated to the Senate after he was ousted of the Coolidge landslide in 1924.

The action of the Idaho Senator apparently had surprised the Old Guard leaders, who have taken their seats since March 4, 1925, shod down the list, and thus removed the much from committee chairmanships.

SEEMS TO HOLD KEY

While many things may happen within a year to alter the Senate situation, as the political divisions now stand, Senator Borah's reinstatement to the organization problem since his vote could be used to cause a long deadlock like that of three years ago, when the Republican insurgents finally succeeded in securing a Democrat as chairman of the important Interstate Commerce Committee.

That the Republicans will make every effort to retain the Senate is indicated by the appeal made yesterday by Senator Curtis of Kansas, their Senate leader, to the Republicans of Maine to elect one of their own to the Senate election on the 29th inst. to fill the vacancy caused by the death of Senator Farnald.

Even if the Republicans are successful in their contention they will have only forty-seven seats in the new Senate, to an equal number for the Democrats, Shipstead-Farmer-Labor, Minnesota, and Preston.

With Frazier reinstated, the Republicans would need only one more vote to have a clear majority for organization, provided all of the insurgents remained in the Senate. The Republicans, however, will probably the first to be ousted of the Senate if the new Senate is held.

GOSPIG CUTS LOOSE

Senator Curtis's appeal to Maine Republicans started a swirl of gossip at Capitol Hill and this was given impetus by Senator Borah's letter to Senator Watson. This communication was not made public, since it was held in confidence, and will be held in confidence until the election on the 29th inst.

The Republicans will be able to fill the Senate if the insurgents remain in the Senate. For the first time in the history of the Senate, the party which had been most successful in the Senate has been most successful in the Senate.

Both Republican conference and Senate action would be necessary to confirm the reinstatement of Frazier to the party council, and there

## DESTRUCTION OF FLASK COSTLY

Suspect Fined for Smashing Glass on Street at Hanford

HANFORD, Nov. 11. (AP)—When officers arrested Raymond Castro on a charge of suspicion or bootlegging, he destroyed the evidence by smashing his bottle on the pavement. In court today he was fined \$300 with the alternative of 300 days in jail for scattering glass on the pavement.

\*\*\*\*\*

would have to be further readjustments in committees with some Republicans who have taken their seats since March 4, 1925, shod down the list, and thus removed the much from committee chairmanships.

AUTOS HELD TO BLAME IN BOYS' FALL

Head of Reform School Says Most of Thefts Not Made for Gain

RAGRAMENTO, Nov. 11. (Executive)—Automobiles are responsible largely for the increase in juvenile delinquency among California boys, in the opinion of O. H. Close, Superintendent of the State Reformatory School at Ione. Close declares that 48 per cent of the youths now in the Preston Reform School were committed on reformatory charges, and that 90 per cent of the youths犯了自動車の運転の問題。

"Practically none of the youths" said Close, "will drive the auto with the thought of permanent gain." The last time it took a boy to get into a car to take a girl riding or to get to another town. As soon as the purpose was served the car was abandoned.

Close's researches have shown that 90 per cent of the youths remain in the state for the first two years to the last decade as for the five years prior to that.

IN THE matter of promoting aviation, this country is acting wisely in refraining from spending great fortunes for machines that would be out of date in a short time.

The cost of pt is constantly changing, but we are training our men to fly in such numbers, and to such a degree of skill that our flyers will be able to fly any machine.

E. H. Weidlin, head of the Mellon Institute in Pittsburgh, told the delegates that American chemical research is now on a plane with Germany, researches have pointed out that "industrial leaders have recognized the gravity of such an offense."

Close believes that juvenile delinquency showed the greatest increase immediately following the war. He says that the increase, however, has not been so great during the last half-decade as for the five years prior to that.

TAFT DENIES EXPRESSING LIQUOR VIEW

Repudiates Quotation by Temperance Society But Defends Enforcement

NEW YORK, Nov. 11. (AP)—Chief Justice Taft has denied a charge that he had expressed any personal opinion as to prohibition since he went on the bench.

Mr. Taft's statement was reached by William E. Gaunt, president of the Free Speech League, and James Starr, international vice-president of the United Textile Workers of America, which organization recently superseded the United Textile Workers of America. The AFL refused to treat with the latter union because of asserted Communistic proclivities of its leaders.

Taft's statement did not include many of the demands made in the strike, among which were an increase in wages, allowance of time and a halt for overwork.

Action on the suggestion of the Idaho Senator will be deferred until just before or immediately after Convention, scheduled on December 6. The Republicans then will nominate Senator Watson. This committee on the various committees caused by the resignation of Senator Cummins of Iowa and Farnald.

Both Republican conference and Senate action would be necessary to confirm the reinstatement of Frazier to the party council, and there

## LAND PREPARED IF WAR COMES

Mobilization Plans Laid for 20,000 Industries

Nation on Combat Footing in Four Months' Time

Aviation and Chemical Arms Declared Superior

CHICAGO, Nov. 11. (Exclusive)—America is far better prepared for war than most people could even hope, because of the fact that since 1916, more than 20,000 of this nation's industries have been "mobilized," made ready to convert their plants into war-time production units, it was revealed today at a meeting of the United States War Industries Board Association.

Col. H. B. Ferguson of the War Department announced this fact following an informal luncheon calling together the former dollar-a-year industrial experts who devoted their services and time to the government during the task of converting American industries into the manufacture of war equipment. Almost 100 of the original members of this board were present, representing one of the only two emergency organizations still functioning.

"If this nation were again called into war," Col. Ferguson said, "the industries would be put on a war-time basis in four months. The last time it took a year to get to that point, and since 1916 we have devoted our efforts to preparing these plants for combat."

IN THE matter of promoting aviation, this country is acting wisely in refraining from spending great fortunes for machines that would be out of date in a short time.

The cost of pt is constantly changing, but we are training our men to fly in such numbers, and to such a degree of skill that our flyers will be able to fly any machine.

E. H. Weidlin, head of the Mellon Institute in Pittsburgh, told the delegates that American chemical research is now on a plane with Germany, researches have pointed out that "industrial leaders have recognized the gravity of such an offense."

Close's researches have shown that juvenile delinquency showed the greatest increase immediately following the war. He says that the increase, however, has not been so great during the last half-decade as for the five years prior to that.

Brilliant Playing  
Brings Victory

48 Yards in Longest  
Run of Contest

Team Tightens Hold  
on First Place

BY BRAVEN DYER  
During the amazing total of 182  
points in the game, halfback Har-  
rison led the Pomona College eleven  
to victory over Whittier, while a  
crowd of more than 8000 persons  
jammed the Poet's stadium  
and overflowed into the surrounding  
hills. The score was 21 to 6, and Merritt  
was either directly or indirectly  
responsible for all of the twenty-  
two points, including the winning  
one out of the race.

He played superb football,

on every bit as good yester-  
day as his famous brother "Fuzz"  
did, and that's saying a lot.

He used to convert for Pomona

the most difficult field goals

by getting a big kick out

for his younger brother

and through the Whittier line.

MERRITT WHOLE SHOW

He made only one of Pomona's

two touchdowns, but his ma-  
jestic dashes through his op-  
posing lines put the Sagehens in

position to score the other two. He

## TIGER-HARVARD BREAK MAY LEAD TO EASTERN SHAKE-UP

NEW YORK, Nov. 11. (P)—The break-up of the historic "big three," brought about by Princeton's decision to snap all athletic ties with Harvard because of ill-feeling surrounding their gridiron relations, may lead to a shake-up all along the eastern football front and the formation of a new eastern conference of major colleges.

The groundwork for such re-

alignments of college athletic in-

terests already has been laid to

such an extent that Harvard is

obliged to expect Princeton to be

invited without delay to join a

group that would embrace Co-  
lumbia, Cornell, Dartmouth and

Pennsylvania, with Brown, Army,

Navy and Yale also sought as mem-  
bers. The possibility of such an association, al-  
ready known to the underworld, has  
been outstanding development  
today as eastern eyes fo-  
cused on the results of the swift

Tiger stroke that put an end

to the oldest of all

football rivalries.

Any prospect that the sudden

breach between Princeton and Har-

vard might be closed, as suggested

today by such prominent Crimson

supporters as Howard Elliott, presi-

dent of the Harvard class of 1907,

was apparently eliminated by a

statement from athletic authorities

at Cambridge, accepting Princeton's

decision "with regret." At the same

time, Princeton's administration

announced a policy heretofore

the Crimson to only one fixed foot-  
ball game a year, that to be the

annual battle with Yale.

Princeton's attitude now appears

to be that the team with Harvard is

"closed" and that the Tiger will pur-  
sue its own course without further

dealings with the Crimson.

The step taken by the Princeton

board after control last night,

although undoubtedly hastened by

developments in consecutive

with the result of a long series of

events, it was made clear today. One

of the most important factors from

the Tiger viewpoint, was the attempt

of Harvard not long ago to substitute

Michigan on its 1927 schedule for

Michigan and Brown.

(Continued on Page 4, Column 7)

## ARMY WAITS FOR IRISH

Cadet Eleven Has Same Line-up That Upset Squad From South Bend Last Season

NEW YORK, Nov. 11. (P)—As in the case with most conflicts, this week's spectacular warfare on eastern gridirons appear likely to be decided in the front-line trenches.

Aerial displays, backfield heroics and the inevitable "breaks" all have been factors in the campaign thus far but the main strugles have been swayed chiefly by the force of such "shock troops" as those of Army, Navy and Brown, plus a trio of outstanding eastern contestants.

All TESTED

All three of these aggregations will be sharply tested this Saturday with the Army meeting the Yankees at the Polo Grounds, Navy tackling Georgetown and Brown invading Harvard's stronghold.

The Oredets have the same record as the Navy line, but the

Yankees have the best record in the

league, having won 10 games and

lost only 2, while the Navy has

won 9 and lost 3.

Army's "big men," the victims

of Yale and Brown, are

confident of adding Harvard to

their list of victims. Instead of

willing under the strain of play-

ing two straight games without

resting, the Oredets seem to have

thrived. All are in prime condition.

Cornell will pit its rugged backs

against Dartmouth's versatile back-

wards.

BROWN CONFIDENT

## HULL HOUSE HEAD DENIES RED CHARGE

Jane Addams Brands as False Settlement Base for Communists

CHICAGO, Nov. 11. (P)—An attack on Hull House as a radical and communist headquarters, by Capt. George Watkins, commander of the American Legion, has been "utterly false and unwarranted," said Miss Jane Addams, head of the settlement.

Miss Watkins, who succeeded to Capt. George H. Howes, P. Savage, national commander of the Legion, charged in an address yesterday to the Illinois Federation of Women's Clubs, that "Hull House is a rallying point of every radical and communistic movement in Chicago."

The leaders of the settlement are trying to sell out their country to some international schemes, in which they vainly hope to profit themselves, said Addams, specifically naming statements which Capt. Watkins attributed to her, when he was in a public meeting at the White House to strip uniforms from the members at Fort Devens to deprive our countrymen training and leave America, relying on the good will and tolerance of the rest of the world.

"Jane Addams told in a public meeting at the White House that she hoped for independence of the United States," said Capt. Watkins. "While I have always been in favor of compulsory military training in our schools, I have never intended to interfere with government's program of training our service members in the cause of the United States."

**Little Diabetes Can't Do Us Any Harm, He Says**

GOV. NELSON W. SPARKS, Nov. 11. (P)—A diabetes patient, Dr. Elliott P. Joslin, author and clinical professor of medicine at Harvard University, delivered an address last night before the Ohio Valley Medical Association. He explained that the sudden loss of weight from the disease is generally less dangerous than diabetes in old age, which may run out of 100 persons in 100 years after middle age. Dr. Joslin said, in a lecture on "The Diabetes of Today," that there is much hope for diabetics suffering at this age at which the disease may run out later and later. The new diabetics run out 50 years of life, he said.

Dr. Joslin, on a lecture tour of the country, including San Diego, and Pasadena.

**ESPIONAGE CHARGED**

PRAGUE (Czechoslovakia), Nov. 11. Discovery of an asserted Communist espionage plot here has caused a vigorous protest with the Legation of the Soviet Union. Some 100 persons have been arrested, among them Czech Communists and other Bulgarian students. Ilyou Simunek, one of the Communists, is said to have delivered secret documents to the Soviet Vice-Consul in Prague, delegate of the Soviet political police, who was released because of his diplomatic immunity.

The Only Photograph Ever Taken of John Quapaw (above), chief of the Quapaw tribe in Oklahoma, is the one presented above. It was taken during a visit to Lawrence (Kan.) Indian School on occasion of only trip he has ever made outside of reservation. (Herbert Photos, Inc.)

Most Prominent Man of Letters on either side of the Atlantic, George Bernard Shaw, has just passed his seventieth milestone. Photo shows Shaw at his desk, turning out his daily stint of several thousand words on his last birthday. (Herbert Photos, Inc.)

## OUR HISTORY IN PICTURES 559 The Forts Surrender to Porter

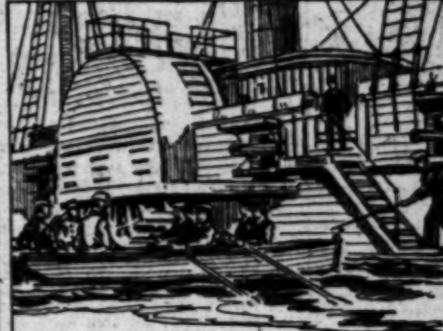

ALTHOUGH FARRAGUT'S FLEET HAD REACHED NEW ORLEANS, THE CONFEDERATES STILL HELD THE FORTS BELOW THE CITY. COMMANDER PORTER, WHOSE MORTAR FLEET CONTINUED TO MENACE THE RIVER DEFENSES, ON APRIL 25 (1862), DEMANDED THEY SURRENDER, BUT GEN. DUNCAN, THE CONFEDERATE COMMANDER, DECLINED TO DO SO UNTIL HE RECEIVED WORD FROM NEW ORLEANS.

These daily history strips make a unique pictorial history of America.

ON BEING INFORMED THAT THE CONFEDERATE GARRISONS MEANT TO HOLD OUT, PORTER RESUMED BOMBARDING THE FORTS AND SENT MORTAR BOATS AROUND INTO THE GULF TO ATTACK FORT JACKSON IN THE REAR, WHILE FEDERAL TROOPS OF BUTLER'S ARMY WERE THROWN BETWEEN THE FORTS AND THE CITY.

ON APRIL 28TH, HAVING BEEN NOTIFIED THAT FARRAGUT WAS IN POSSESSION OF NEW ORLEANS, GEN. DUNCAN AGREED TO YIELD. THE GENERAL, WITH COL. HIGGINS AND OTHER CONFEDERATE OFFICERS, WAS ESCORTED ABOARD THE "HARriet LANe", PORTER'S FLAGSHIP, WHERE TERMS OF SURRENDER WERE DISCUSSED.

WHILE THE ARTICLES OF CAPTURE BEING SIGNED THE MONSTER CONFEDERATE IRONCLAD "LOUISIANA", WHICH HAD BEEN ABANDONED AND SET AFIRE BY HER OWN CREW, WAS DRIFTING DOWNSTREAM TOWARD UNION STEAMERS. BEFORE SHE REACHED THE UNION SHIPS, HOWEVER, SHE BLEW UP WITH HER OWN CANNON. THE UNION STEAMERS, including the "FARRAGUT" AND THE "HARriet LANe", were

in the water, delegates of the Soviet political police, who was released because of his diplomatic immunity.

In the center of the fruit tent is a terraced fountain filled with a variety of colored and shaded. At one side is an educational exhibit on the uses of apples in the home and development. At the middle the eastern side is a stage from which will be given varied entertainments.

The fruit tent is decorated in a rustic way that blends well with the beautiful fruit. Overhead are cedar and oak branches interspersed with twigs from apple trees. The display of apples has been turned from their summer green to the varied brownish and golden shades of autumn colors typical of them with its proverbial crispness.

From the fruit tent the visitor comes to another display devoted to poultry culture. This industrial exhibit is also larger than ever.

This afternoon at 2:30 will be given a program of Bedtime High School.

At 2:30 the school will be open to the public. The program will be conducted by the band and orchestra.

At 3:30 the annual school dinner will be held.

During the week several performances for the community will be given by Prof. W. E. Newell of the University of California.

The Yucaipa Valley has just harvested a crop of 250,000 boxes of apples. Oak Valley, which is also a hitherto heavily, has a crop of more than 200,000 boxes.

NEW BANK TO OPEN DOORS AT GLENDALE

GLENDALE, Nov. 11.—Organization of a new national bank to be established in Glendale to open doors about January 1, has been completed and the names of the officers have been announced by those who are sponsoring the bank.

The bank will be known as the American National Bank of Glendale with an authorized capital of \$1,000,000, a surplus of \$200,000 and an additional \$10,000 to be expended on the preliminary expenses incident to launching the bank.

A building to house the bank will be erected at the northeast corner of Brand Boulevard and Colorado and construction to be started immediately.

The president of the bank will be Roy L. Kent, prominent real-estate dealer and contractor.

George F. Palmer, chairman of the Glendale Chamber of Commerce, will be vice-president.

O. C. Johnson, now assistant manager of the National Bank of Hollywood, will be cashier. The directors will be Daniel Campbell, David C. A. T. Corman, Peter L. Perry, George G. Jones, all of whom are prominent citizens of the city. The new bank will open the day after Thanksgiving.

The bank here, which will be an independent institution.

CHARGE BOY WITH CAUSING MILL FIRE

FREMONT, Nov. 11. (P.T.)—Believed to be the originator of fire which swept through the Madry Packing Company warehouse last night with an estimated value of \$200,000. Don Peeler, 16 Centralia, Wash., was a prisoner in the County Jail at 10:30 a.m. when he was taken into custody early this morning at the scene of the fire. He was being held for trial on a charge of arson. He was questioned by the officers.

Questioned by the officers, Peeler said he had been smoking in the building and set fire to a box of papers. He will be questioned today by Deputy Sheriff C. Williams and by Deputy Sheriff C. Fay, who is in charge of police cases.

SERENADE VETERANS

SAN FERNANDO, Nov. 11.—The San Fernando band, directed by Robert F. Fuchs, gave a two-hour concert in the United States Veterans Hospital this afternoon for the benefit of the patients. The band is composed of employees of the institution.

The program consisted of patriotic, sentimental and popular numbers.

# Five Hundred Dollars for EXTRA EFFORT and a fine new motor car for Christmas!

## POINTERS ON THE GREAT DOUBLE OFFER

NEW Times subscriptions only count for the double offer of \$500 in gold and \$500 extra votes.

It is not necessary to turn in a monthly \$50 club at one time. The best way is to turn them in as fast as secured. The subscriber may turn in papers separately. The nomination department will keep an accurate record of every nomination and will issue a special vote ballot at the close of the offer.

All new subscriptions turned in during the period beginning November 9 and ending at 9 p.m., November 24, will apply on this double offer.

New subscriptions are worth more than double this period than at any time during the year.

New "second payments" also apply on this offer. That is, any subscriber who has given you a lead in a nomination and the nomination started may make a second and payment extending the subscription for three years, and the amount of the second payment will count on the second offer.

ALL REGULAR VOTES ARE GIVEN ON EACH SUBSCRIPTION AS SEPARATELY AS ON THE FIRST PAYMENT.

No contestant has a lead that can easily be surpassed during their entire nomination period. Let your favorite candidates will find this an unusual means to sweep forward into the lead for the big prizes.

Who are the most ambitious, the most energetic men and women now striving to win automobiles in the Los Angeles Times' mammoth \$50,000 prize campaign? The Times wishes to make a test, and, at the same time, to make it easier than ever for aspirants to realize their hopes. So it has set aside the large, juicy plum of \$500 in gold, to be given in four special prizes. The grand prize of \$200 will be paid to the contestant who turns in the highest total amount in NEW Times subscription payments for the period ending November 24. It will make no difference in what district or division the candidate resides. Every contestant will have a chance to win this \$200. The remainder will be divided into three prizes of \$100 each—one for each of the three divisions into which the Times campaign territory is divided. The contestant in each division who turns in the highest total amount in new Times subscription payments during this period, excepting, of course, the \$200 winner, will be paid \$100. Thus every contestant has a chance at one of two special prizes—the \$200 grand prize, or the \$100 division prize. Winning one of these special prizes will NOT in any way disqualify the contestant from winning an automobile or other prize at the end of the campaign. The gold is EXTRA—a special inducement to determine who are the most active workers.

When The Times' famous prize race ends December 18, thirty automobiles, wonderful radio sets and numerous other cash prizes will be awarded. To make winning all the easier, a special voting period has been arranged to run coincidentally with the \$500 gold offer. All new subscriptions turned in during the gold offer will apply also on this extra vote offer, and every \$30 combination of these new subscriptions will earn 90,000 extra vote ballot. A "combination" or "club" simply means \$30 worth of new subscriptions. Contestants are not limited to just one club. Two clubs will earn two 90,000 extra vote ballots, and so on. Truly an amazing opportunity! A chance to claim a big gold prize now—the means to accumulate thousands of votes with which to win a fine new motor car this Christmas! It is not too late to enter The Times' wonderful prize campaign. Perhaps the man or woman who enters now will be the one to carry off the biggest special gold prize—the costliest automobile. Any one over 16 years of age, except Times employees, is eligible. No hard work to do. Just go among your friends and acquaintances, and induce them to become regular readers of The Times, "World's Largest Newspaper." This need not interfere with your regular work. Your spare time will do. Others will win automobiles this Christmas by putting their spare time to good use now. You can, too!

Ballots to cover extra votes earned on the offer which closed November 6 will be mailed to candidates Saturday

## SANTA FE WILL ADD EQUIPMENT

Order for Fifty Locomotives Placed by Company

Additional Double Trackage Also Announced

Improvements Necessitated by Business Growth

As evidence of the prosperity that is being felt throughout the West and the principal agricultural States traversed by the system, the Santa Fe Railway yesterday placed an order for fifty locomotives to cost \$4,000,000 to take care of the increasing business, including the California fruit and citrus crop.

President W. B. Story, who signed the order for the biggest power purchase in several years, announced at the same time that the company will double its double trackage in the Belen cut-off between San Francisco and Panhandle, in Texas, and another stretch of six miles northeast of Amarillo between Hancey and Canyon. The amount of the improvement was not announced, but will exceed \$1,750,000, it is expected. The double-tracking is on account of the development in the Panhandle fields. President Story announced.

The locomotives ordered include thirty of the Mikado and Santa Fe types for heavy freight service, and are among the most powerful engines used by the system.

Twenty locomotives for passenger service is moving the trans-continental trains daily between Chicago and Los Angeles were ordered.

This will be the largest gathering of western cattlemen ever held, as the marketing organization has built up a strong co-operative spirit among the cattlemen in the five States in which it operates and a large number of producers have already made arrangements to attend the meetings.

Last year the convention brought 400 cattlemen to San Francisco, but this year's attendance will far exceed that figure, according to R. M. Hagen, assistant managing director of the association.

Previously known speakers will be elected for the coming year. The annual banquet and entertainment will be held on the last day of the meeting.

The association reports that last week the cattle market has steadily with more action at slightly increased prices, all along the Good heavy cattle in steerable points, carrying from \$100 to \$140 freight. Good heavy cows brought \$3.25 to \$5.00. The smallest volume of cattle in several years has been referred to the Coast trade, resulting in considerable inquiry and slightly increased prices.

**Building-Loan Society Assets in Sharp Gain**

The total assets of the Southern California Building and Loan Association at the close of business October 30, last, were \$6,339,413.30, as compared with \$4,997,883.46 on January 1, last, an increase of \$1,485,527.84 for the ten month period, it was announced yesterday by Norman R. Martin, general manager.

The company serves 119 communities in Northern Indiana, including Hammond, South Bend, Fort Wayne, Elkhart and East Chicago. It owns generating plants with an installed capacity of 600 kilo-horsepower and has available through interconnections with neighboring public utility companies an additional 30,000 kilowatt-hours. The company's outstanding common stock is owned or controlled by the Midland Utilities Company.

The Harris Trust and Savings Bank is offering an issue of \$600,000 of first mortgage 5 per cent gold bonds at 101 and interest to yield more than 4.90 per cent. The bonds are due November 1, 1946.

## PREFERRED OIL STOCKS FEW

After Standard of New Jersey Retirement, Industry Will Only Have 1,500,000 Prior Shares Out

BY EARL E. CROWE

When the Standard Oil Company of New Jersey retires its \$200,000,000 of 7 per cent preferred stock, the oil industry will only have a few preferred stocks left. In fact, the subtraction of the 1,969,729 preferred shares of the Jersey company will leave only a little over 1,500,000 shares of listed preferred shares outstanding in the oil market. Certainly there are few other industries with such a small amount of preference stock ahead of the common shares.

Common shares of the oil companies on the principal markets are about 100 times greater in number than the preferred capitalization, after the withdrawal of the Standard of New Jersey preferred. A recent compilation by the New York Stock Exchange house of Prince & Whitley shows that about 106,500,000 shares of common stock are outstanding on the New York Stock Exchange as the obligation of the companies. These shares have a total market value of approximately \$3,747,500,000.

## CATTLEMEN TO CONVENE IN BAY CITY

Annual Convention of California Association Meets on December 11

Seventy-five hundred cattlemen from California, Nevada, Oregon, Arizona and New Mexico will meet in San Francisco on December 10 and 11 in the annual convention of the California Cattlemen's Association.

This will be the largest gathering of western cattlemen ever held, as the marketing organization has built up a strong co-operative spirit among the cattlemen in the five States in which it operates and a large number of producers have already made arrangements to attend the meetings.

Last year the convention brought 400 cattlemen to San Francisco, but this year's attendance will far exceed that figure, according to R. M. Hagen, assistant managing director of the association.

Previously known speakers will be elected for the coming year. The annual banquet and entertainment will be held on the last day of the meeting.

## CONVERTIBLES POPULAR

The tendency of funds to convert into the convertible securities of the oil companies in selling convertible bonds when they find the money market is more inclined to bond financing than stock financing.

The small proportion of preferred is negligible as a charge ahead of the common stock in the properties, leaving the common stock as creditors, with a prior claim on earnings and properties. In several instances, however, the outstanding common shares outstanding convert to which each share of stock has claim.

From the other point of view, it is a tribute to the oil industry that the equity of the common stockholders in the oil industry is, particularly in the oil stock equities in other industries.

## PIG IRON SALES FEATURE TRADE

Total of 200,000 Tons Sold  
During Week

Buying Movement Apparently  
Gains Strength

Steel Output and Prices in  
Downward Drift

CLEVELAND, Nov. 11. (Exclusive) Pig iron sales, chiefly for first quarter delivery, exceeded 200,000 tons the past week with the strength of the buying movement apparently not spent, the Iron Trade Review will say today. Considerable first-quarter tonnage would normally be placed at this time, but rising prices of iron, reflecting recent advances in fuel, have proved a spur. Efforts of some consumers to buy beyond the first quarter have been repulsed by producers.

Pig iron's vitality as a market factor is evidenced largely by pig iron in the past week. Coke prices in the Connellsville region remained stationary though firm, but by-product coke prices now show some stimulation, notably at Detroit and in Southern Ohio. Pig iron prices, with the exception of Chicago and Birmingham (Ala.) districts, either have solidified their recent gains or registered advances.

The limited steel market continues to drift slowly downward, both in point of orders and production, but without any signs of an accelerated rate of the contraction. Steel ingot production for the month of October is just under 80 per cent with the United States Steel Corporation subsidiaries operating slightly heavier than the independent interests. Heavy and medium steel, limited in movement, their position better than some lighter products. Steel production, in particular, has shrunk as much as 10 per cent in some districts, during the month.

Statistically the present market continues on a sound footing. Steel ingot production in October proves to have set a new high monthly record of 2,242,548 tons, and an average of 157,406 tons. This is a gain of 161,973 tons over September and compares with 3,888,814 tons in October. Production in the first ten months of this year totaled 39,

MONEY EASY

Money was again in plenty at and below the official rate of 4-1/4 per cent. The market has been quiet, but was up 1-8 of 1 per cent today, money and commercial paper held steady, but with offering rates. The New York Stock Exchange failed to make any appreciable response to the announcement that freight traffic in the ended October had set a new record, such as Atchison, Topeka, and Santa Fe, Chicago and Northwestern, Peoria and Eastern, showed not a point up, so but the market only fractionally.

The bank demand in the six associated in some quarters with

(Continued on Page 16, Column 5)

## Increasingly Difficult

DURING the past few years it has gradually become more and more difficult to obtain high-grade securities at prices which would yield in the neighborhood of 7%.

As the tendency of interest rates continues to be downward, and as high-grade securities increase in price, it becomes doubly important to scrutinize carefully those securities on which the interest return is higher than the average current return now prevalent.

To the discerning investor we can recommend with conservatism several such securities on which fairly generous returns can still be had.

It should be well worth your while to consult us about them.

## THE INVESTOR

Belgian Bonds Declared as Offering One of Foremost Investment Opportunities of the Year, Evidence of Which Being Shown in Quick Oversubscription.

Copyright, 1926, by New York Evening Post, Inc.

NEW YORK, Nov. 11. (Exclusive) One of the foremost investment opportunities of the year was presented earlier this week in the offering of the \$50,000,000 Kingdom of Belgium external sinking-fund 7 per cent gold bonds. That the buying public was well aware of this fact is indicated by the quick subscription of the loan.

In the opinion of many competent observers, the 7% per cent yields on high-grade foreign government bonds are limited. The purpose for which the bonds were floated—the stabilization of Belgium's currency—will in itself tend to shorten this period. Stable currency is the greatest factor in general prosperity, which, in turn, are reflected in improved credit conditions.

The willingness with which other European countries and the United States undertook to help Belgium to regain her financial feet is further evidence of the improved international relations, which are being brought about. It is also further evidenced in the coalition of the international political forces in the country formed for the purpose of establishing sound financial conditions, and all decisions regarding stabilization and monetary policy have been taken.

The external debt of the nation, including the bonds just sold, and of intergovernmental debt, amounts to approximately \$833,872,000, or \$108 per capita.

If in the future the government shall issue any loan, whether internal or external, having a lien on any specific revenues or assets, the indenture provides that the bonds under discussion will share ratably in any such loan. The bonds are not callable for ten years. If called at the expiration of that period, those who purchased them at the offering price will stand to profit \$90 on each \$100 bond.

Proceeds from the sale of the bonds will be paid directly to the National Bank of Belgium, which will immediately turn them over to the stabilization of the nation's currency. The bank is charged with the duty of carrying out the monetary policy of the country, and steps have been taken to provide all the power necessary for that purpose.

If additional importance is given to the fact that a credit of \$35,000,000 has been placed at the disposal of the bank by the central and reserve

banks of Austria, England, France, Germany, Holland, Hungary, Japan, Sweden and the United States.

The present government of Belgium is in coalition with the international political forces in the country formed for the purpose of establishing sound financial conditions, and all decisions regarding stabilization and monetary policy have been taken.

## NEW YORK CURB STOCKS

NEW YORK, Nov. 11. (AP)—Major activity in today's curb market was on the up side, but weak spots again cropped out in several sections of the list. Buying operations appeared to be of a more confident character, particularly in the oils and public utility sections, and the weakness in most cases reflected the absence of bids rather than a pressure of selling.

Revival of activity in an early retirement of Standard Oil of New Jersey preferred, coupled with rumors of special dividend distributions in other issues, brought the demand for the oil shares. Some American issues were in most demand, with sharp gains on the current upward record.

Philip Morris, Marascalco, Carlo

Syndicate and Venezuelan Petroleum

Buying of American Marascalco was

influenced by the reported discovery

of oil well on adjacent property

by the Standard Oil Company of Calif.

Revival of activity in Fox Theatres

A, which rallied from 23 to 25, was one of the features of the industrial section. 1929 stock prices were

again recorded in American Seating,

Continental Tobacco, American

Home Insurance and Proctor & Gamble

being preferred. Philip Morris' dipu-

larity was high. On the other

hand, Ford of Canada broke over

200 points on odd-lot sales to 32 or less

than half the year's high.

Trading was inaugurated today in

National Products Corporation,

a holding company for chain-store

stocks such as Borden's, Jantzen,

David Pender, United States Steel,

J. C. Penney and others with prop-

erty extensive from New England

to the Southeastern Atlantic States

and out to the Middle West.

Over 75,000 shares of Class A stock

and 400,000 shares of Class B, both

no-par, of which 350,000 shares of

Class B are reserved against purchase

warrants.

Speculative interest in the public

utilities was confined largely to

low and medium class issues, with

a two-point gain in Electric Investors

as one of the few features.

## STOCKS RENEW UPWARD TREND

(Continued from Twelfth Page)  
parts of an early retirement of the  
1 per cent preferred stock of the  
Standard Oil of New Jersey, Atlantic  
Refined Oil Co., Standard Oil Co.,  
Gas, Simon & Skelly all closed  
a point or more higher. The  
newly recorded by Montauk Power,  
United Railways Investment preferred  
and Radio Corporation preferred.

**NEW HIGHS SCORED**  
Other stocks to break into new  
high ground were Corn Products, T and  
Gulf Sulphur, which Carbons and  
Jordan Motors, Central Leather, Un-  
ited Wood Typewriter, Central, National Cloak  
and Suit preferred and Advance  
Rumsey preferred broke to new 1926  
lows.

Baldwin responded to reports of  
large orders by jumping over 1 points  
to 14.4, closing a point below  
top. Winton's closed over 7 points  
to 162 on the announcement that the  
company would open a chain of stores  
in Germany.

Cotton prices were a trifler firmer in  
quiet trading. Raw sugar dropped  
1-1/2 to 14.4, a pound and coffee  
prices eased 10 to 11 points. Western  
grain markets were closed today in  
observance of the Armistice Day holiday.

Heavy buying of sterling in antici-  
pation of the settlement of the coal  
strike featured the foreign exchange  
market, demand being London  
gold quoted 3-8 cent higher around  
\$44.15. French francs were firm  
above 2.20 cents, but Italian lire  
sagged over 1 points to around 4.08  
cents. Other charges were nominal.

Wheat Futures  
on Liverpool  
Market Higher

CHICAGO, Nov. 11. (Exclusive)—  
The Winnipeg, Liverpool and New  
York markets were the only impor-  
tant ones open today. Chicago and  
most American exchanges being  
closed for Armistice Day. Trading in  
wheat in Liverpool was in a  
heavy opening was followed by a firm  
and higher close. December being  
8-4d higher than March and May un-  
changed. December, when there was  
up 16d. Trade in Winnipeg was light,  
while wheat prices having a range of  
2-4d were closed 1-4 lower. Oats  
then were unchanged to 1-6c lower;  
barley unchanged to 1-5c higher;  
flax 1-2c lower. November wheat  
in Winnipeg finished at 1.50-5-8. De-  
cember in Liverpool, 1.72-1-4 and  
May 1.76-1-8. December closed 1-6c  
higher than May 1.67-1-8.

In the New York grain market  
a better export demand developed,  
with sales of 700,000 bushels Mani-  
toba to England and the continent.  
There were also inquiries for rye, but  
no actual sales booked.

Winnipeg started to change to 1-6c  
higher with a little export buying by  
commercial houses. Tired buying indicated  
later in the day, causing a de-  
cline from yesterday's close, when  
seaboard buying developed, making a  
small rally. The tight freight  
situation is retarding export but  
while a country movement contin-  
ues heavy with loadings on Wednes-  
day 3,925,457.

Buenos Aires market was closed to-  
day, but Liverpool reported Argentine  
exporters offering new wheat for Jan-  
uary-February shipment.

LOS ANGELES MARKET  
GATTLER—About half yesterday's estimated  
was from Texas butts failed to the  
best condition and were offered for sale. The  
majority of the stock was steers and  
cows, mostly steers. A car of 1,000 pounds  
was sold for \$2.00 a pound. A six-car string of  
Arizona steers averaging 1,000 pounds, went  
over for 1.35, with about half the car  
but steers around 1,000 pounds, bought the  
same price, while the other half, slightly heavier,  
made 1.40. A short load of 1,000 pounds  
steers, mostly steers, bought for 1.35.  
GATES—Active demand closed up the small  
cattle market, which was steady to 1.35.

## POOL PROFITS

A vital message to all stock buyers. Tells how pools operate—how pool members make big profits. Facts and figures. A new 16-page booklet, written and copyrighted by our Mr. Hansen, just off the press. Tells of the first notable pool in gold. The Northern Pacific pool, pools dating back to 1870 and up to the present time. Other items include:

Northern Pacific Pool  
U. S. Steel Pool  
Nipissing Silver Pool  
Copper Pool  
Phillips' Petro. Pool  
American Gas Pool  
Julian Petroleum Pool

Tells of pools recently operated in a certain Los Angeles security that is said to have paid enormous profits to the members of the pool.

Whether you have \$50 or \$5000 for investment or speculation, read this interesting illuminating booklet.

Copy mailed free if you request it now.

HOW TO GROW.  
If you are three feet high today, What will you be the First of May?  
Two inches taller. Will you be Two inches better? Wait and see!  
Both of those ways you ought to grow,  
Goops only grow one way, you know!

LOS ANGELES LURES

WASHINGTON JURIST

WALLA WALLA (Wash.) Nov. 11. (Special to the Times)—Mills, Judge of the Walla Walla County Superior Court since 1913, announced today that he is mailing his resignation to Gov. Hartley with request that it be accepted effective Dec. 1. Judge Mills will become head of the legal department being opened in Los Angeles for the United States Fidelity and Guaranty Company.

For two days there was about the

the country-side

the newly married was the

highest form of romance, next to love. So they prepared, the bones, combs, tins cans, the cow bell, and the horse.

gathered about Obaid's old home,

broke into such wild tur-

and clangor that for miles about the farmers heard the scrapping, the grunting, the shouting.

But apparently Obaid did not hear.

The custom of the country-side

the newly married was the

highest form of romance, next to

love. So they prepared, the bones,

combs, tins cans, the cow bell, and the horse.

gathered about Obaid's old home,

broke into such wild tur-

and clangor that for miles about

the farmers heard the scrapping,

the grunting, the shouting.

But apparently Obaid did not hear.

He did not come to the door or to a window.

"What's this?" asked the boys, who

had wanted no more than to

have a drink, so they pounded on his door shouting: "Obaid! Give us \$2 from your chest!" But still he made no sign.

LOS ANGELES (Loco Ahngayn)

MEMBER OF THE ASSOCIATED PRESS

The Associated Press is exclusively entitled to the news and reproduction of all news credited to it or not otherwise credited in this paper and also all local news published here within.

Times aims at all times to be accurate in every published statement of facts. Readers who notice any inaccuracy or any statement that they will confer a favor by calling attention of the Editorial Department to the error.

PAY IN ADVANCE

The next nation that starts a war will have to carry a cash register to the battle front.

ACKNOWLEDGE THE CORN

An Illinois youth recently husked twenty-eight bushels of corn in an hour. He may well be called a husky lad.

SHOOT TO KILL

"Shoot to kill" is the order given by the government to the Marines who guard the mails. The Marines who are known to shoot do not have to shoot.

HARD TO SUBSTITUTE

This is a great age for substitution. The chemists and the laboratories are doing wonderful things, but as yet little progress has been made in the quest for synthetic ham and eggs.

THE MIGHTY INFANT

The proof-reader on a Hollywood magazine let pass the statement that the motion-picture industry was still in its infancy. No wonder the censorship crusaders find warrant for their activities.

NEW HIS ONIONS

The height of historical erudition as well as of business sagacity was reached by the youthful vendor of an evening newspaper whose blatant reference to the great truce anniversary was "All about Ormsdon's day."

NO BEAUTY SHOW

A lady doctor says that girls must not cross their knees. Possibly a reason is that there are mighty few maidens who can display their kneecaps to any credit or advantage. Girls may cross their hearts, but not their legs.

THE CLIMBERS

It is well that a man should be ever on the lookout for a better job, but it is wrong to exercise this eagerness to the extent of neglecting the one he has. Promotions are won through making good in duties already known.

IN CASE OF THE

There are likely to be a number of tie votes in the next assemblies of the United States Senate. This being so, Vice-President Dawes is certain to be something more than the figurehead, supposed to be the fate of Vice-Presidents.

WRONG NUMBER

A New York woman is suing the telephone company because her husband was fatally injured by falling downstairs to answer a telephone call that was a "wrong number." If "wrong numbers" prove to be as deadly as this possibly they will not be so prolific.

CLASSICAL COOKING

A French chef, August Escoffier, famous cook of Napoleon III, has come to America to introduce a vegetable cooking concoction with 7 per cent alcohol. He says American cooking can never become "classical" until we learn the use of rum in it. Evidently this is a stewed dish.

BOY POLICE

In order to release the police for more strenuous duty many cities are employing schoolboys to act as junior traffic cops to guard children in safety zones across busy streets. An auto in Washington was fined \$25 for disregarding the school patrol. The kids make good cops.

FREE ADVERTISING

The Los Angeles dirigible made a successful flight demonstration from Lakehurst, N. J., down into Ohio and up to Detroit and return recently. It covered 1800 miles at an average speed of a mile a minute. The government is giving Los Angeles considerable free advertising these days.

BABBON'S BLUES

A distinct recession in business and possibly a panic within two or three years would not be surprising in the prediction of that prophet of finance, Roger W. Babson. Possibly what he takes for the east wind in the tops of his New England elms is but the braying of the Democratic donkey.

DUTCH UNCLE

It is noticeable that the ones who are most enthusiastic for cancellation of Europe's debts are not the ones who invested most heavily in Liberty Bonds. Artemus Ward was also willing to have all his wife's relations go to war. It is comparatively easy to cancel other people's money. What ones need is not a rich uncle but a Dutch uncle.

NO LAZY MAN'S LAND

Mussolini has issued an edict that all males must work. He says the "existence of privileged individuals, for whom life's sole enjoyment is to profit by the work of others, is wholly inadmissible." As a result less unemployment exists in Italy than anywhere else in Europe. However, if this keeps up the Duce will soon be going around tucking the folks in at night.

A TRIUMPH OF STRATEGY

It is one thing for a military hero to achieve a masterly triumph of strategy and it is another thing for him to tell of it in a way that reflects both glory and modesty. That Gen. Alvaro Obregon is fully capable of accomplishing both these difficult feats is evidenced by his frank and highly interesting account of the manner in which he saved himself, his tiny escort and a trainload of passengers, among them many women and children, from the fierce attack of a large, well-armed band of hostile Yaquis at Vicam Station, Mex.

Little of Latin fervor is shown by Gen. Obregon in his exclusive report of the affair to The Times. Every line of the cool, modest, well-rounded account reveals the fact that not only is the former President of Mexico a master of military artifice, but that he is skilled in writing reports of his strategy that shall be fully informative without any insistence whatever upon the merit of his exploits.

The Yaquis were incensed because one of their chiefs, Juan Rivera by name, had not arrived at Vicam and was thought to be held in custody by the government at Hermosillo. Gen. Obregon managed by his artful powers of persuasion to get the Yaquis themselves to send a telegram to Gov. Bas at Hermosillo so couched as to give the Governor something more than a hint of the desperate peril of the people on the train, while requesting him to send Rivera to Vicam and adding the words, "I transcribe the foregoing message in order that you hasten the movement as much as possible." The general knew that the Governor would understand from this telegram the necessity of sending a large force of men to the relief of the train, which he did immediately, routing the Yaquis who had dug in alongside the track and were prepared to deliver a destructive fire.

One can imagine the nervous tension among the passengers, the escort and their doughty leader during the eighteen hours of parley and delay before the reinforcements arrived from Hermosillo, as well as the amazement of the Yaquis over the outcome of what they had considered a perfectly logical proceeding on their own part in sending that innocent telegram. The only bit of Latin exuberance betrayed by the Obregon account was what was said about the arrival of Gen. Manzo and his meeting with the beleaguered general: "We embraced each other, and I congratulated him for his quickness and efficiency." Under like conditions, perhaps two American generals would have felt like embracing each other, though they would have refrained from doing so. In France they would have kissed quite fervently, but in Mexico they take it out in embracings, which is less feminine but just as effectively demonstrative of friendly emotion.

Gen. Obregon reports that while the Yaquis were entrenched beside the track, a pouring rain fell for an hour. This, however, did not dampen their hostile ardor, for, after holding off for a time, they resumed their line formation about the train and would have attacked it with true Indian ferocity had they been compelled to wait much longer. Indeed, they did fire one volley on the arrival of Gen. Manzo, but this does not seem to have resulted in any fatality and was quickly followed by their complete rout at the hands of the newly arrived troops.

It is unlikely that Gen. Obregon ever indulged in a little game of "draw," but if he did one can imagine that his poker face would be as imperturbable and inscrutable as that of any professional.

CANNED FOODS WEEK

Were ten of the most competent observers in America to draw up a list of the ten inventions most conducive to modern culture and comfort, doubtless the lists would vary considerably in details; but it is safe to say that one and all would include somewhere in the tally the great American invention of the automobile.

Canned goods, indeed, next to the automobile, the motion picture, modern plumbing and the radio have played a leading part in the silent revolution of manners and customs that has taken place in the twentieth century. And just as the motor car, the motion picture and the bathroom plumbing have advanced since prewar types to new and unsuspected degrees of perfection, so have the modern canned foods products made those of fifteen years ago look like the horseless carriage and the rain barrel.

For this reason the customary week allotted to prunes and apples and raisins and potatoes and such single commodities has in this instance been stretched to ten days.

From November 10 to November 20 the housewives and husbands of Los Angeles are invited to acquaint themselves with the latest and best in the canned-foods field of activity and to refresh their memories and their palates—on what they already knew of the convenience and luxury of eating from the tinned container.

One of the first things to be noted about modern canned food is that, besides being convenient and tasteful, it is essentially sanitary and wholesome. Modern canners use only fresh, vegetable, fruit and fish. The mainstays large laboratories to can food products made those of fifteen years ago look like the horseless carriage and the rain barrel.

SAN PEDRO, Nov. 9.—[To the Editor of The Times:]

CONSOLATION

BY ADRIAN PARKER

TO WAR'S DEAD

Infant Lives But Two Hours After Being Taken from Mother's Body Following Auto Wreck

By a "Times" Staff Correspondent

LONG BEACH, Nov. 11.—What is declared by medical men to be the first Caesarian operation ever performed in this city on a body occurred here today following the death of Mrs. Hilda Allum, 32 years of age, in an automobile accident. The operation brought into the world a baby boy who lived two hours before passing into the shadows to join his mother.

Mrs. Allum, whose home was at 2206 Lowe Drive, was riding with her husband, Arthur E. Allum; her son Harry, 10; and her daughter Betty, 8, when their automobile collided at Sixth street and Linden avenue. The driver, Adolph George of 749 Clinton, 10, was severely bruised and cuts in his head, and his right arm was broken. He was arrested and is being held pending the result of an inquest tomorrow.

"We are not alone, dear.

## Pyorrhea's victims are 4 out of 5

A ruthless enemy that gives no quarter is Pyorrhea. Its poisons sweep through the system undermining health and often causing such serious diseases as rheumatism and neuritis, appendicitis, ulcers, stomach troubles and nervousness. The price it demands is paid in health and beauty.

Four out of five past 40, and thousands younger, pay this heavy toll. But you need not fear these uneven odds. For you can protect teeth and gums against the attack of Pyorrhea and so safeguard health.

Go to your dentist at least twice a year. And start using Forhan's for the Gums, today. This dentifrice, the formula of R. J. Forhan, D. D. S., prevents Pyorrhea or checks its course.

Forhan's keeps gum tissue firm and healthy. It protects teeth against acids which cause decay and keeps them a lustrous white.

Use Forhan's regularly, morning and night. Teach your children this good habit. They will thank you in later years.

Forhan's is not an ordinary toothpaste. It contains Forhan's Pyorrhea Liquid used by dentists everywhere. It is health-insurance. At all druggists—35c and 60c.

**No tell-tale Odor**  
Forhan's Antiseptic, new product, more powerful, safe, antiseptic mouthwash known, has no tell-tale odor of its own. Keeps you safe from whispering tongues. Try it.

**Forhan's for the gums**

### Try This Unusual Recipe— Upside Down Cake

1/2 cup Pancrust  
2 cups flour  
2 teaspoons baking powder  
1 teaspoon salt  
1 cup sugar [white]  
lemons sugar  
sliced pineapple  
whipped cream

Cream Pancrust, add white sugar gradually and beat. Stir in the beaten egg yolks. Mix and sift flour, salt and baking powder twice, and add alternately with milk to Pancrust mixture. Add vanilla and pineapple juice; beat well. Fold in beaten egg whites. Grease cake pan with Pancrust and put in a 1/4 inch layer of brown sugar. Add walnut meats, broken in medium size pieces. Arrange sliced pineapple on top. Pour cake batter over fruit and bake in medium oven for about 45 minutes. Turn upside down on a large round dish and serve with whipped cream.

Use Pancrust for all cooking.  
It is an all-purpose fat.

## SOCIETY

BY JUANA NEAL LEVY

One of the lovely events of last evening was the marriage of Miss Bernice Rosner, attractive young daughter of Mr. and Mrs. George Cornelius Rosner of Beverly Hills, to Ruth Cameron Hinckley, son of Mr. and Mrs. Charles J. Heyler of the Ambassador.

The ceremony, solemnized in the chapel of St. John the Evangelist on Adams street at 8:30 o'clock with Rev. George Davidson officiating in the presence of relatives and close friends.

The bride was graduated from Marlborough School, where she is affiliated with the Delta Iota Chi alumnae.

The bride's alma mater is Columbia University.

**Leave for East**

Congressman and Mrs. John D. Fredricks are leaving Monday morning for the American Legion's D. C. by way of the Panama Canal.

The couple will be in Panama in

the middle of March.

The bride was graduated from Marlborough School, where she is affiliated with the Delta Iota Chi alumnae.

The bride's alma mater is Columbia University.

**Week-Ending**

Mr. and Mrs. William Booth Guyton, and their daughter, Mrs. Edward Moore, will be in Los Angeles.

Mr. and Mrs. Beverly Scott, who have been abroad for the last eight months.

**Meeker-Hatwell**

The marriage of Miss Constance

Meeker, charming daughter of Mr.

and Mrs. Howard Meeker of Los

Angeles, Robert Hatwell was solemnized yesterday at noon in Wilshire Boulevard Congregational Church, Dr. Frank Dyer officiating.

Mr. Harry Meeker, a

bridegroom, was a director of honor in

frock of orchid shades with picture

hat to match. E. P. Lambert served

as best man, and Harry McAfee and

Albert H. Moore, ushers.

The bride was given in marriage by her

father and wore a becoming frock of

white chiffon with silver tracery and

carried white roses and blue

hydrangeas.

**Entertains Guests**

Mrs. James H. Woods is entertain-

ing with several tables of bridge at

the bridge-tea given tomorrow after-

noon at the Mary Louise by the Los

Angels Alumnae chapter.

Misses Frances and Irene will be Mrs.

Charles P. Turner, Mrs. John V. Bar-

row, Mrs. E. C. Pyle, Mrs. Michael

Creamer, Mrs. Birney Donald, Mrs.

G. W. Sessions, Mrs. Clarence Don-

ald, Mrs. J. McKillop, Mrs. Ben Hu-

ster, Miss Martha Hunter, Mrs. Henry

Brown, Mrs. G. Conkey, Mrs. G. C.

De Garmo and Mrs. H. J. Donovan.

The ten guests will be Mrs. Gamma

Updike chapter of Delta Gamma and

the affair, which is an annual one, is

being sponsored by members of Gamma

Updike chapter of Delta Gamma, and is un-

tilized.

**Dinner Party**

One of the attractive affairs of the

day will be the dinner with which

Mr. and Mrs. Judson Claudius River-

es are entertaining at their home in

the Ambassador.

Mr. and Mrs. Edward Duerdin Bronson of Oak-

land, aunt of the bride and Mr. and

Mrs. Roy A. Bronson, also of the

northern city, and Walter T. Knox.

**Motor Trip**

Mr. and Mrs. Frank W. Davis have

returned to their home in Hollywood

after a most enjoyable motor trip at

Casa de Manana, in La Jolla.

**Campus News**

Four fraternity houses will be util-

ized for the first all-university pro-

gressive dance of the season to be

held this evening by students at the

University of Southern California.

Miss Gladys Lee, vice-president of the

student body of U.S.C., is in charge

of the social arrangements.

The Gamma Gamma, Pi Beta Phi, Xi

Phi, and Zeta Tau Alpha, Epiphany

Houses on West Twenty-eighth street

will be the scene of the affair, which

is intended to promote a feeling of

good-fellowship among the students.

Misses Mary and Helen, members of the

house committee, and other groups

are headed by Miss Mildred Miller, Bill Stewart and Everett Miller.

Elaborate decorations in orange and

white will create a festive and gay

atmosphere at the Alpha Delta Pi

Sorority house, University of Southern California, when the active chapter

entertains with a dance tomorrow in honor of the dance.

Guests of honor will be Misses

Catherine O'Connor, Adelaide Barton,

Nora and Lydia Hoffman, Lucille

Robinson, Katherine Murdoch, Mary

Ronk, Mrs. Marie C. Glass, G.

Bromley Orman, John Abbott,

Robert Perry, George Day and David

Shulman.

**ANSWERS TO MOTHERS**

God could not be everywhere; therefore He made mothers.—[Jewish Proverb].

**HERNIAS**

Mrs. R. son was born with navel

hernia which has not healed. She

used to use a button until

a clinic doctor showed her to

use a strip of cloth.

She was told that the hernia

ought to heal quickly, but it hasn't.

I think it has anything to do

with his nervous system and over-

activity. He is underweight and over-

active. Isn't he underweight and over-

active? Is it possible that he is

overactive? How about diet? Won't

he have some good books on

the subject? (We will send you a list

of receipt of your request and a

selection of books on the subject.)

With a strip of cloth, I would have him

do some special abdominal exercises

—bending and touching the floor

with his finger tips; lying on the floor

and raising the legs; then raising

the body to sitting position without

the aid of the hands etc.

Babies with hernia are very apt

to be terribly spoiled, because moth-

ers are under the impression that

it will hurt the baby to cry if

he wants to. He certainly

should have that privilege, if he needs

it, to develop his character when he is in pain. I would like to bring him what he wants. (Needless

to say, the cause for crying should

be always investigated, before assuming

## SAN DIEGO'S BRIDGE PLAN UP TO ARMY

Engineer, on Visit Here,  
Asserts War Department  
Approval Final Step

Plans for the construction of a bridge between the mainland and Coronado at San Diego, to take the place of the ferry now operating there, were placed before a representative of the War Department, at a hearing in San Diego on Wednesday, according to John L. Harrington, head of the Kansas City firm of engineers who submitted the bid for the building of the structure.

Mr. Harrington was at the Biltmore yesterday and will spend a few days in Los Angeles before returning to Kansas City.

"All preliminary formalities with reference to the building of this bridge have been completed," said Mr. Harrington. "All that remains before construction is started is the approval by the War Department of such a bridge and receipt of the bid submitted. The bridge structure proper will be 4400 feet in length, and, with approaches, will cost about \$2,400,000."

The plans submitted by Mr. Harrington involve the lift type bridge which will be a part of the construction whereby the central span is elevated by electric power to a sufficient height to permit ocean liners to pass through.

Mr. Harrington's firm, Harrington, Howard & Ash, has built a number of bridge structures on the Pacific Coast, including the Arroyo Seco viaduct at Pasadena.

## WEAK HEART RUINS ROMANCE

And Herbert Reid's Cantankerous Cardiac Organ Just Goes to Show That It Won't Do to Propose to One's Love on the Sidewalk if the Ambulance Must Follow

Many and varied are the emergencies which require the ambulance but, according to Dr. Dunsmoor of the Receiving-Hospital staff, the strangest of all was recorded yesterday morning.

Receiving a hurry call from 2411 North Broadway, the Lincoln Heights ambulance, with Officers Bowen and Norton in charge, made a fast run to the scene and there discovered a young man lying unconscious on the sidewalk. Kneeling over him was a demure little miss, 17 years of age, who told the officers they were too late, the patient had just passed out.

"You see, officers," the girl explained, "Herbert Reid and I are Herbert Reid and he lived at 1100 North Avenue. Herbert and I were walking along the sidewalk when I suddenly stopped and asked him to marry him. I refused, and he collapsed right on the sidewalk!"

Reid, who told the police he is 18, was taken to the hospital where he soon regained consciousness and told Miss Anderson, receiving nurse, that this was the second time his heart had been fractured. There seemed nothing that the surgeon's skill could do for him, so he was discharged with a few first-aid hints and told to go home.

WEST VIRGINIANS TO PICNIC

The final picnic rally of the fall will be held tomorrow when the West Virginians under the leadership of Capt. Joseph B. Alexander will meet in Sycamore Grove Park. He will open

county registers in the morning and will supply souvenirs, badges and coffee, but picnickers are to bring their own dinner. The program and oratory will follow the dinner. All West Virginians are invited.

## Military Rites Given T. B. Fox at West Point

Burial with full military honors in the West Point Military Academy Cemetery yesterday preceded Thaddeus Burr Fox, 70 years of age, according to telegrams received here by his father, Maj. E. E. Fox, who resides at the Peacock Hotel, 735 Olive street. Young Fox, who was a cadet at the academy, died last Saturday as a result of injuries received when he was struck by an automobile, dispatched from the commanding general. He had been a student at the school for the past year.

Maj. Fox, a veteran of the late war, is chairman of the sick committee of the Los Angeles chapter of the D.A.R. and Emergency Officers of the World War, and yesterday chapter executives were pointing out that it was a grim coincidence that his son met death in the same manner as that in which his emergency officer here on the very day on which Maj. Fox had completed final arrangements for forwarding his body to his former eastern home.

Maj. Fox had served in the Spanish-American War, the Philippines, China and was a member of Pershing's punitive expedition into Mexico.

## WOMAN ASKS \$50,000 FOR ASSERSED ATTACK

Charging W. A. Grinton with striking her in the face and kicking her, Mrs. Beulah Fields has filed suit against Grinton for \$50,000 damages.

The asserted assault occurred September 15, last, according to Mrs. Fields, who stated she was in a dinner engagement at the time. As a result of the incident, the complainant stated, Mrs. Fields has been confined to her bed and has developed appendicitis which will necessitate an operation.

## FILM CUTTER IS MADE DIRECTOR

Warners Find Brilliant Talent in Howard Bretherton; William Fox to Arrive in Hollywood January 1; Jack Dempsey Back to Films

BY GRACE KINGSLY

From a cutter's job to that of directing would seem to be a long step, but those incorrigible pioneers, the Warner Brothers, whose pioneering nine times out of ten in motion picture comedy have undertaken another, equally enterprising, project. They have recruited one of Columbus' film cutters and have lifted one of their film cutters up that very step.

Howard Bretherton, affectionately known on the Warner lot as Bud, has been elevated from the position of film slasher to that of director.

The new director's first assignment will be guiding of *Rin-Tin-Tin's* next starring vehicle, *King of the Cedars*, which is being adapted by Edward Clark from Dorothy Yost's original story, "The Untamed Heart." Production will begin under Bretherton's direction within the next ten days.

An alumnus of Leland Stanford University, Bretherton's first connection with motion pictures was as an extra with Harold Lloyd in 1916. After a period of work in various comic ranks, he worked as assistant director in several studios, coming to the Warners as cutter about three years ago. His brilliant ingenuity in editing guides him to the attention of the Warners as a directorial prospect.

## William Fox Comes Soon

William Fox, head of the Fox Film organization, is to leave for California, arriving here by January 1, at which time every stage at both the Western and Fox Hills studios will be filled with companies working.

This news was forthcoming from the Fox studio yesterday, where Soo Wurts, in charge of affairs,

producer of the picture, *Samuel Hopkins Adams*, noted fiction writer, left Hollywood yesterday for Burlingame, Cal., en route to his home in the East, following several weeks spent at the Paramount studio in preparing a story for the screen. Just prior to his departure Adams affixed his signature to a contract to write another original for Fox.

Mario Carrillo, Italian film actor, is the author of a book containing twelve short stories of life in the Italian cavalry. The name of the book is "The Gold of Carrillo," which is the motto of the Black Dragoons, of which Carrillo was for several years a member. The book is to be published in French and Italian.

Priscilla Dean is preparing to make another comedy picture for Hal Roach for the Columbia Pictures Corporation. In her Columbia pictures Miss Dean is to concentrate on crook roles.

Frank Beal has been signed for a leading role in Tom Mix's picture, "The Last Trail."

Clyde Cook May Cut Capers in Corper Comedy

Clyde Cook may add mirth to the new edition of "Monkey Business," opening at the Majestic on the 22nd inst. It was rumored yesterday that Michael Corper is negotiating with the comedian to appear in the revue.

Corper, brought here from Australia by the producer of the show, is to be joined by a number of New York stars, including the Ziegfeld "Follies."

He also toured the Keith-Orpheum circuit. More recently he has appeared on stage in a comedy role, one of which, in "The Wedding of Barbara Worth," is now showing at the Fox.

Alce Knowlton, in private life Mrs. Clyde Cook, is the prima donna of "Monkey Business." Other humerites include Eddie Borden and Ernie Young.

## DICKSON STUDENTS WILL GIVE PROGRAM

Students of drama and dancing at Neely Dickson's Hollywood Community Studio of the Theater will present a program at the regular meeting of the Woman's Republican Study Club to be held this afternoon in the Ritz Bros. auditorium.

"Supper, Dance, Singing-Set comedy in two scenes, will be enacted by Charles Parr, Caroline Terrill and Edith Arnold.

The dance numbers, to be staged under the supervision of Miss Justice, will include, "Gypsy Dance," "Reed Street," "Nauch," by Yvonne Parks and "Incease Dance," by Edith Arnold.

## DE MILLE STAR APPEARS TONIGHT

Students of drama and dancing at Neely Dickson's Hollywood Community Studio of the Theater will present a program at the regular meeting of the Woman's Republican Study Club to be held this afternoon in the Ritz Bros. auditorium.

"Supper, Dance, Singing-Set comedy in two scenes, will be enacted by Charles Parr, Caroline Terrill and Edith Arnold.

The dance numbers, to be staged under the supervision of Miss Justice, will include, "Gypsy Dance," "Reed Street," "Nauch," by Yvonne Parks and "Incease Dance," by Edith Arnold.

## Grace Gordon Signs for a Nice Role in Support of Viola Dana in "Home Struck," which F.B.O. is producing under the direction of Ralph Ince.

The name of Miss Gordon completes the cast, and work is to be commenced on the picture next Monday. Tom O'Gallagher is playing the lead, with Alan Brooks in an excellent role as the son of the general. Brooks is remembered for his brilliant play "Sense," in which he also starred on the Orpheum circuit.

## First National's New One

The purchase of an original screen drama entitled "Hairspace" for production in the near future is announced by John MacLean, general manager of west coast pictures.

"Hairspace" is a captivating comedy of domestic problems, and it is probable that Lewis Stone will be

## VENTOSH TALK

## DAY'S FEATURE

Lecturer in Ringing

Address From KHJ

Evening Speeches to

be Future Event

Program Reflection of

Anniversary's Meaning

By MAX PRICE BROOKS

Another Armistice Day anniversary

passed into history. The cele

bration held at the Coliseum will

be forgotten by those who were

there. It certainly made the heart

quicken to see the One Hun

and Sixtieth Regiment passing

in review. It is easy to understand

why this organization ranks at the

head of the pack.

The day at KHJ was a full one, be

coming with the program at 11 a.m.

At the top of the Times tower

was the ringing of the cannon.

The salute of twenty-one blasts of

the gun, the ringing of "Retreat"

by the Band of the One Hundred and Sixtieth Regiment.

The address by Major General

"Oscar Price," marked

"Two Hours of Program."

A short talk told in an informal

way of his experiences overseas during

the World War.

He spoke of his association with Gen. Pershing

and of little intimate things which

are really of much more heart interest

than the big things.

EVENING CONCERT

The evening concert was delightful.

Especially by the Zoellner Quartet

at the opening of the day seemed to shine

brightly the entire program, making

a thing of beauty. Two hours

of "Oscar Price,"

"The Lark Quartet," opened

the program.

A charming intermission

by Fawndy, the even more

charming minstrel, was a move

of the "Sonic Cupus 35," by Glasow,

"Oriental Sketch," and "Scher-

Completed their program. Mother

poet of KHJ, Mrs. J. A. R., had a

song on the program.

The Zoellner Quartet, this was

and the Zoellner Quartet responded

to the composition by Rubinstein

which inspired them.

Mrs. Andrews sang last evening

for the last time until after the

day. She and her mother, Mrs.

Mary E. Andrews, are to leave

the city Saturday evening when

they will move to Chicago, where

they will visit relatives and friends.

Miss Andrews will be missed by her friends

and by the Zoellner Quartet, who

will sing her lovely songs. A friend of

Mrs. Andrews, who never fails to tell

us the particulars, enjoys anything

of Miss Andrews. "The selection

of the program is appealing. Long before

the pleasure of knowing her

personally, I loved her voice because

of its refinement, culture and sweet-

ness.

WORK OF CHARITY

The Andrews took up radio work

in this place the day after the

death of their father, who was long a shut-in.

The spirit of giving was uppermost

in her mind, and she hoped she

would be able to bring into the lives

of others who could not get out to

beautiful music.

It is unnecessary to say that her spirit has en-

riched the homes of many who, too,

are fond of this charming

young woman.

The songs last evening included

Donald O'Connor's "O, Lovely Night"

and Shirley Dorsey's "Afternoon."

Afternoon" and Frank L.

Lamb's arrangement of "Little Star."

The second visit of Glenn Sturdivant

Baritone, augmented the admiring

admiration of the artist. His voice is of

the highest quality, and his in-

spiration is unequalled.

Robert Weng, winner of the Inter-

national Oratorical Con-

conducted in Washington, gave a

series of addresses on "Ar-

ticle Day."

His speech and address on "Ar-

ticle Day" and in an unassuming manner won the

admiration of the entire studio audi-

ence.

Philip M. Lovell gave his

daily talk on the care of the body

and mind.

The series of reading preceded Dr.

D. W. Lovell's lecture.

BOY'S BAND GOOD

The boy's band at Baldwin Park

had a good time from 7:30 o'clock

up to midnight.

This band is up to the mark.

Under the direction of C. A. Morris,

they have been organized

and together since they had been work-

ing together less than one year they

call themselves the "Sons of Roses."

The ages range from 11 to 20.

M. Mendelsohn deserves

much credit for the degree of per-

fection obtained in his work with

Baldwin Park Boys' Band.

Brandon, mother of Dickie

Wendy, sang "Two

songs, "Mighty

Ole," and "For You Alone."

Dickie recited "The Fa-

ther of the Family,"

"Tone," stories and gave a good

recitation.

Bonnie Nolen sang "The

Love Song" and gave a reci-

tation.

Uncle John, Bonny Jean

and her little five-year-old

brother, Lewin read two

poems, "Old Glory," and "The Cat's Tea-

the moon program in the

Baldwin Park

## ALCOHOL PLANT CHANGES HANDS

Anaheim Chemical Company Bought by New Yorkers

New Concern to Manufacture Many By-products

Purchasers to Spend \$100,000 on Improving Place

The Crystal Chemical Company of Anaheim has been purchased by the United States Industrial Alcohol Company of New York, according to word from that city received by company officials at Anaheim yesterday. Representatives of the purchasing company, it is said, plan to spend at least \$100,000 in the immediate future for additional machinery and the capacity of the plant will be doubled.

General administrative offices will be located in Los Angeles in charge of W. H. Haughty of New York. The purchase price was not disclosed, but it was admitted the valuation of the plant is about \$500,000. While alcohol is the principal product of the plant, the new owners came into a number of lines of manufacture by-products owned by Dr. Gustave Reich, superintendent. The plant will take care of distribution of alcohol and by-products to the Pacific Coast.

There will be no change in personnel, it was said. Dr. Reich remains as superintendent.

The four principal factors entering into the purchase of the plant are said to be its location on three transcontinental lines, favorable transportation rates to Los Angeles, low labor conditions and the low cost of power.

The plant was established in 1925, its products in 1926 were valued at \$125,000. Seventy men, mostly skilled mechanics, are employed, with an annual payroll of \$100,000.

The United States Industrial Alcohol Company with the Anaheim acquisition will operate seven plants. The present plant at Anaheim will be fifty times larger than the Anaheim plant, which exceeds the other branches in size.

The transaction is reported to be the largest in Anaheim's history.

## DEATH SITS IN AT ORGY OF DRINKING

Trio Found in Vacant Lot, One Dead, Another Dying from Denatured Alcohol

A bout of denatured-alcohol drinking ended yesterday, according to a police report, with the death of a man not yet identified and the serious illness of two others. Charles E. Ewer and Tom Nuner, Beckers, is not expected to recover.

Police found the bodies of a vacant lot near First and Gary streets, surrounded, according to Detective Lieutenant Jarvis and Craig, with a dozen empty bottles bearing skull-and-crossbones labels.

The living pair were taken to a Receiving Hospital for treatment.

## REVIEW FEATURE FOR HEBREW HOME BALL

Plans for an elaborate program of entertainment are being completed in connection with the sixteenth annual stage and screen ball to be given at the Shrine Auditorium on Saturday, November 12th, under the auspices of the Hebrew Sheltering and Home for the Aged. Proceeds will be used for current expenses and improvements on the home at 322 South Broadway. The entertainment, the dancing, one of the featured attractions will be a review presented and directed by Panchon and March, with thirty principals and a ballet of

## YOUNG PEER VISITING IN SOUTHLAND

Viscount Elmley Tells of Dull Time He Had While Acting as Strike Guard

Performing the duties of a police-man under strike-conditions may be an exciting experience in some places but not in London, the young peer of Viscount Elmley, youthful British peer, who patrolled Victoria Station from 2 o'clock in the morning until 6 o'clock for ten days during the big general strike in England last May.

Viscount Elmley, who arrived at the Biltmore yesterday, is touring the United States as a part of his education. He is 21 years of age. An Oxford graduate, he is expected to return to England next month.

He leaves his mother, Mrs. Elizabeth Latimer, sister Miss Daisy Latimer, and two brothers, Charles and Harold Latimer, all of Ontario.
